WARM TIPS

- Please use other container to add water. Don't fill in the tank from water-tap directly.
- Pure essential oils or oils which can be soluble into water are available for use. Please clean the unit as per the maintenance instructions before changing a new type of essential oil.
- It is quite normal that different humidity environment and temperature will affect the mist density.
- Do not let the mist spray to the furniture, clothes, wall directly.
- The essential oils may cause dye. Please use clean cloth wipe up if splashed out accidentally.
- To ensure the sanitation, please pour out the water completely and wipe up the unit with soft cloth after each use.
- If you don't use the unit for a long time, please pour out any remaining water completely in the tank and store it at dry place.
- When the power connects, the unit original state is OFF.
- If there is short of water in the tank, even though the power connects, the unit will shut automatically. Meanwhile, all functions will be off.

MAINTENANCE

After using 5-6times or 3-5days, please clean the product as follows:

1. Turn off the power and disconnect the DC adaptor.
2. Pour out any remaining water completely in the tank. Do not pour out water from the air outlet side. (Fig.1)
3. Put a small amount of detergent diluted in the water. Then use a clean cloth dip in the water and wipe up the unit gently. If there is any dirt in the inner side of tank, please clean it.
4. Never use medical diluent, alcohol during maintenance. Or it may cause product damage and erase various signs on the product.

Note: please use neutral detergents.

(Fig.1)
